

THE VISUAL & VERBAL IDENTITY SYSTEM

An SEO platform built for the GCC. Bilingual by architecture — Arabic and English, native to the product rather than bolted on.

01 Brand Strategy

The strategic foundation every other decision in this system traces back to.

POSITIONING · VALUES · AUDIENCE · PERSONALITY

SERP + Fix. Built for your market.

The name tells you exactly what the product does. SERFIX finds what is broken in your search performance — and gives you the prioritised list to fix it.

BRAND POSITIONING

The space we own.

POSITIONING STATEMENT

SERFIX is the SEO platform built for markets where Arabic is a primary language — making bilingual search optimisation **native to the product**, not an add-on.

BRAND NAME ORIGIN

SERP (Search Engine Results Page) + Fix. The name tells you exactly what the product does.

THE GAP WE FILL

Ahrefs, SEMrush and Moz are built for English-first markets. Arabic SEO support is limited, tokenised, or absent entirely.

WHERE WE PLAY

Primary: UAE, Saudi Arabia, GCC agencies & in-house teams.
Expansion: MENA — bilingual capability travels.

What we stand for.

01

GCC-Native by Design

Arabic SEO is not a feature we added. It is the reason the platform exists. We build for this market first and export outward — never the other way around.

02

Practitioner-First

We speak to SEO professionals and marketing teams — not executives looking for a pitch. The product makes hard work easier. We do not pretend the work is easy.

03

Honest and Direct

We say what the data shows. We do not oversell features or hide limitations. Trust is earned by being accurate — not enthusiastic.

TARGET AUDIENCE

Who we build for.

Replace Remove

PRIMARY PERSONA

The In-House SEO

Digital marketer at a UAE or GCC company. Manages SEO alongside other duties. Needs bilingual keyword research and technical audits without switching tools.

- UAE-based
- Bilingual
- Monthly reporting

Replace Remove

PRIMARY PERSONA

The Agency Team

SEO manager at a regional digital agency. Handles multiple client accounts across Arabic and English websites. Needs volume and speed without quality loss.

- Multi-client
- GCC focus
- Volume work

Replace Remove

SECONDARY PERSONA

The SME Owner

Business owner managing their own WordPress site. Not an SEO expert. Needs the WordPress plugin and clear, accessible reporting.

- WordPress
- Self-managed
- Local SEO

How we show up.

Technically Confident

We know the product deeply and explain it clearly. We do not perform expertise — we demonstrate it through precision.

Regionally Grounded

Not a global tool with an Arabic toggle. The region is in our architecture and our defaults.

Direct, Not Aggressive

We get to the point in fewer words. No urgency tactics, no manufactured scarcity.

Practitioner's Voice

We speak to people who do SEO, not people who approve SEO budgets. The tone assumes competence.

THE SERFIX CHARACTER

The tool your regional competitors haven't found yet.

SERFIX speaks like a senior practitioner experienced, measured, and direct. A tool built by people who have done SEO in Arabic and know what the workflow actually requires.

How we write.

DO

- ✓ **Write in active voice.** "SERFIX audits your site" — not "your site is audited."
- ✓ **Use data over claims.** Specific numbers beat vague assertions.
- ✓ **Speak to the practitioner** doing the work — not the executive approving it.
- ✓ **Treat Arabic as equally important.** Always original copy — never a translation.
- ✓ **Name the region specifically.** "GCC" and "UAE" are precise; "MENA" is vague.
- ✓ **Lead with capability,** not the team's enthusiasm for it.

NEVER

- ✗ **Superlatives.** "Most powerful", "best", "world-class", "unmatched."
- ✗ **Startup language.** "Disrupt", "leverage", "synergy", "game-changing."
- ✗ **AI-first framing.** "AI-powered", "powered by AI." AI is how we build, not the pitch.
- ✗ **Arabic as an afterthought.** No machine translation as a substitute.
- ✗ **Passive copy** about the product.
- ✗ **Marketing filler.** If a sentence doesn't serve the reader, cut it.

03

Brand Identity

SERfix

WORDMARK

The SERfix mark.

ORIGIN

SERFIX is derived from SERP (Search Engine Results Page) + Fix. The wordmark uses capitalisation and scale contrast to hold this dual meaning in a single mark.

SER — uppercase

Reads as a recognised acronym. Precise, technical.

Inter 800 · #111111

fix — 58% size

Reduced scale creates a calligraphic quality — personality without decoration.

Inter 800 · #F26419

Shared baseline

SER and fix sit on the same baseline. The size difference moves upward — fix does not descend below SER.

WORD MARK

Construction.

Typeface	Inter 800 (ExtraBold)
SER colour	#111111
fix colour	#F26419
Size ratio	fix = 58% of SER cap-height
Letter-spacing	−0.04em (both elements)
Backgrounds	#FFFFFF or #F5F4F1 only

WORDMARK

Clear space.

CLEAR SPACE RULE

Minimum of 1× the cap-height of “SER” on all four sides. This zone must remain free of any text, graphic elements, or competing imagery.

DIGITAL MIN

120px wide

PRINT MIN

30mm wide

When in doubt — give the mark more space than the minimum. Compression reduces the mark's authority more than most other misuses.

Approved variations.

Primary
Default for all use — white background.

Warm Surface
Confirmed wordmark bg · #F5F4F1.

Dark — Product UI Only
Dashboard context only — not for marketing.

The dark variation is strictly reserved for product UI. All marketing assets — web, social, proposals, print — use the **primary** or **warm surface** variation only.

What not to do.

Do not use gradients on the wordmark.

Do not invert the colour logic — orange stays on “fix”.

Do not set SER and fix at the same size.

Do not place on an orange or coloured background.

Do not skew, distort, or rotate the wordmark.

Do not use any typeface other than Inter 800.

04

Colour System

Primary colours.

SERFIX Orange

HEX	RGB	CMYK
#F26419	242 · 100 · 25	0 · 62 · 90 · 5

Primary accent. CTAs, wordmark “fix”, key metric callouts. **Never as a background colour.**

Ink

HEX	RGB	CMYK
#111111	17 · 17 · 17	0 · 0 · 0 · 93

Primary text and structure. Wordmark “SER”. All headings and body copy on light backgrounds.

Complete palette.

BRAND	NEUTRALS	SURFACES	SEMANTIC
Orange #F26419 · Accent	Ink #111111 · Text	Surface White #FFFFFF · Primary bg	Success #16A34A · Rank gains
Orange Light #FEF0E7 · Tints	Ink 500 #5A5A5A · Secondary	Surface Warm #F5F4F1 · Section tints	Warning #D97706 · Crawl issues
Orange Dark #C44E0E · Hover	Ink 300 #9A9A9A · Disabled	Surface Cool #F2F3F5 · Table rows	Error #DC2626 · Broken links

05

Typography

Aa i

Inter

Aa

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789 & . , :
; ! ? / @

Available via Google Fonts — free, variable weight, full Latin character set.

800 EXTRABOLD — DISPLAY / HERO

Rank higher, faster.

600 SEMIBOLD — HEADING

Technical SEO Audit

500 MEDIUM — LABEL / UI

Keyword Research · Backlink Analysis

400 REGULAR — BODY

SERFIX crawls your entire domain and delivers a prioritised fix list.

Cairo

ا

ا ب ت ث ج ح خ د ذ ر ز س ش ص ض ط ظ ع غ ف ق ك
ل م ن ه و ي

Available via Google Fonts — free, full Arabic character set,
designed for digital RTL use.

WHY CAIRO PAIRS WITH INTER

Cairo is the geometric Arabic typeface that most closely mirrors Inter's construction — open apertures, consistent stroke weight, modern design. The same design principles, a different script.

700 BOLD — ARABIC DISPLAY

ارتفع في نتائج البحث

400 REGULAR — ARABIC BODY

سيرفكس تفحص موقعك وتقدم قائمة إصلاح مرتبة حسب الأولوية.

Type scale.

LEVEL	LATIN — INTER	ARABIC — CAIRO
Display	Rank higher, faster.	ارتفع في نتائج البحث
H1	SEO Platform	منصة السيو
H2	Keyword Research	بحث الكلمات المفتاحية
Body	SERFIX delivers results.	سيرفكس يحقق نتائج.
Label	Site Audit · Keywords	تدقيق · كلمات

Arabic sizing note: Arabic letterforms require ~10–15% more vertical space than equivalent Latin type at the same point size. Never set Arabic and Latin at identical sizes and expect visual parity — always adjust as specified.

06

In Application

The system in the real world — where consistency is what makes a brand recognisable.

Website.

SURFACE

#FFFFFF primary, #F5F4F1
alternating sections.

CTAs

#F26419 background, white text
— hover #C44E0E.

HEADINGS

Inter 800, #111111, tracking
-0.025em.

This document defines the visual and verbal identity system for SERFIX. Every application of the brand — digital, print, product, or social — must reference this guide before production.
